

In Baltimore City ...

The leading cause of death among residents aged 15-34 years is **homicide**¹.

Many youth don't believe they'll live to be 25, and if they do for some it will be behind bars.

**This is your opportunity to make a difference.

SAFE STREETS MONDAWMIN

A Public Health
Initiative to Reduce
Homicides and Shootings

Our Goal:

Safe Streets Mondawmin is a campaign to reduce shootings and homicides in our community.

We are working to change how our community thinks about violence.

Violence is often accepted as an appropriate—even expected—way to solve conflict.

Safe Streets Mondawmin argues that violence is a disease and we, together, need to find the cure.

What We Do:

In order to make violence less common in our neighborhood, we work to identify, detect, and interrupt violence *before* it happens. We offer:

- Conflict mediation services
- Events in partnership with other community groups, organizations, and residents to promote non-violence
- Links to resources; including education & employment

2013 Highlights:

In 2013, Safe Streets Mondawmin:

- Conducted 170 mediations, 92% of which were very likely or likely to have led to a shooting if the mediation did not occur
- Met with individuals who were likely to become victims or perpetrate violence nearly 1,800 times
- Hosted 29 different community events that approximately 4,000 community members attended

How To Get Involved:

We need your help to reduce violence in our community.

- Let us mediate your conflicts by calling the Safe Streets team
- Help us spread the message that violence is not normal and there are other ways to solve problems
- Contact your local representative to express support for the Safe Streets program
- Come to Safe Streets events to show your support and be a member of our community against violence
- Become a Safe Streets volunteer
