

2.3.2023 Meeting

Group Meeting Norms

- When you join, please chat-in or say your name.
- State your name before speaking.
- Verbalize messages in chat.
- Speak for yourself only, using “I” statements: “I do not like...” instead of “we do not like...”
- Raise your hand to speak and use your camera when possible.
- Closed Captioning is available through Teams by clicking on More Actions and selecting “Turn on live captions”.
- Meeting notes will be sent in “text only” format at the end of each meeting.

Vision

An equitable, just, and well Baltimore where everyone has the opportunity to be healthy and to thrive.

The impact we want to make: Reduce the number of people in Baltimore City with chronic disease cause by social factors.

Goals for CY 2023:

1. Improve Food Access, Availability, Utilization
2. Support sustainable urban agriculture in Baltimore City
3. Complete a Community Health Needs Assessment

Agenda:

1. Farmer Report (Baltimore City Urban Agriculture Report):
 - a. The Urban Agriculture report provides important information about some of the farms in Baltimore City and what they are currently doing.
 - b. Daily interactions with the community on farms.
 - c. Farmers are poised to assess community needs.
2. Funding and Project Opportunities
 - a. CDC and CHRC funding & opportunities
 - i. Farmer Hubs for Diabetes Prevention Program
 - ii. Building a closed loop referral between food and diabetes programs
 - iii. CHWs to Farmer location for diabetes education/ referrals to social needs resources
 - b. RWJ Funding
 - i. Applying Culture of Health: Pioneering Ideas
 - ii. LOI in process, seeking application partners
3. What project roles/ where
